1. PROGRAM

Objective	Outcomes	Progress indicators	Assumptions/Risks
Objective: Hatsaykham village is not negatively impacted by the construction activities of the NNP1 project.			
	1. Local authorities and leaders are empowered to maintain the social integrity of the village.	<ul style="list-style-type: none"> • Training of the legal rights of women and children attended • Support for law enforcement • Minutes from village meetings • Reports from villages received by NNP1 team 	Cooperation from local Government partners. Village authorities committed to program Villagers understand risks
	2. Necessary rules and regulations as well as infrastructure are established to limit negative social and environmental impacts.	<ul style="list-style-type: none"> • Code of Conduct available in several languages • Workers camps established according to international standards • Regulations for workers camps available • Camp follower area established with water and sanitation facilities available 	Cooperation from all contractors and sub-contractors
	3. Construction activities are monitored effectively to enable responsive, adaptive management to limit negative social and environmental impacts.	<ul style="list-style-type: none"> • Audit compliance to of code of conduct as part of a robust HR system • NNP1 staff, construction workers and camp followers have the knowledge to be able to protect themselves from STDs, HIV/AIDs • NNP1 staff, construction workers and camp followers have the knowledge of legal and social ramifications of human trafficking and of the abuse of alcohol & drugs 	Cooperation from all contractors and sub-contractors
	4. Villagers have knowledge and skills to increase their resilience to negative social impacts	<ul style="list-style-type: none"> • All households have attended information sessions / participation in village security meetings? • Number of youth aged between 15-25 years are aware of the risks of human trafficking, HIV/STDs and drugs. (pre/post training Ax) 	Villagers are motivated to attend meetings Family support for youth to attend awareness raising activities / life skills training
	5. At-risk groups are able to protect themselves from harm. (Particularly young women and commercial sex workers)	<ul style="list-style-type: none"> • Number of service women who report using condom on last transaction • Increased availability of condoms (guesthouses, restaurants, (pharmacy etc) • Number of sex workers is monitored and reported (including those under age for district reporting) • Number of sex workers who can name at least 3 transmission & 2 prevention methods. • % of Sex workers aware of the availability of sexual health services 	Cooperation from local authorities and venue owners Commercial sex workers are often moved frequently – inhibiting their ability to access services.
